# EIPIC STUDIO LINEUP

## Part 1

Introduction  
to Innovation  
101

## Part 2

Introduction  
to Intellectual  
Property

## Part 3

Patents  
Deep Dive

## Part 4

Entrepreneur  
ship &  
Bench-to-  
Business 201

# Intro to Innovation 101

A basic STEM workshop for students, facilitated by **local and international innovators** who have proven records of success in developing and securing protection for their own intellectual property

# Intro to Intellectual Property 101

An introduction to intellectual property law, provided by **IP legal experts**, including case studies and understanding the significance of IP protection for innovation and economic growth, including trademarks, copyrights, trade secrets, and patents

Nathaniel Wellen

Dasia Taylor

Hannah Herbst

Gitanjali Rao

# Patents 201: A Deep Dive into Patents

A studio designed to take a deeper look into the **patent process** from filing to how they are examined and granted. Participants interact with innovators who are patent-holders about the process and their personal experience

# Entrepreneurship and Bench-To-Business

The final studio is intended to provide students an opportunity for exploring the relationship between **entrepreneurship, IP, and innovation**, identifying strategies for developing and protecting IP assets while engaging with mentors from the IP and business community
