of viewers would recommend it to their peers

68%

of viewers changed how they think about their sexual health

87%

of viewers rated the drama as good, very good or excellent

Network and Skill Development

As more at-risk youth learn about positive sexual health behaviors rates of teen pregnancy and STIs will decrease among them.

Juvenile Justice Innovation and Impact Network

Office of Population Affairs

"The story came to life - and I've never seen that before... so many people came together to ignite the story."

- John, UNSTAINED Drama Film Director, New Mexico
