TASK FORCE

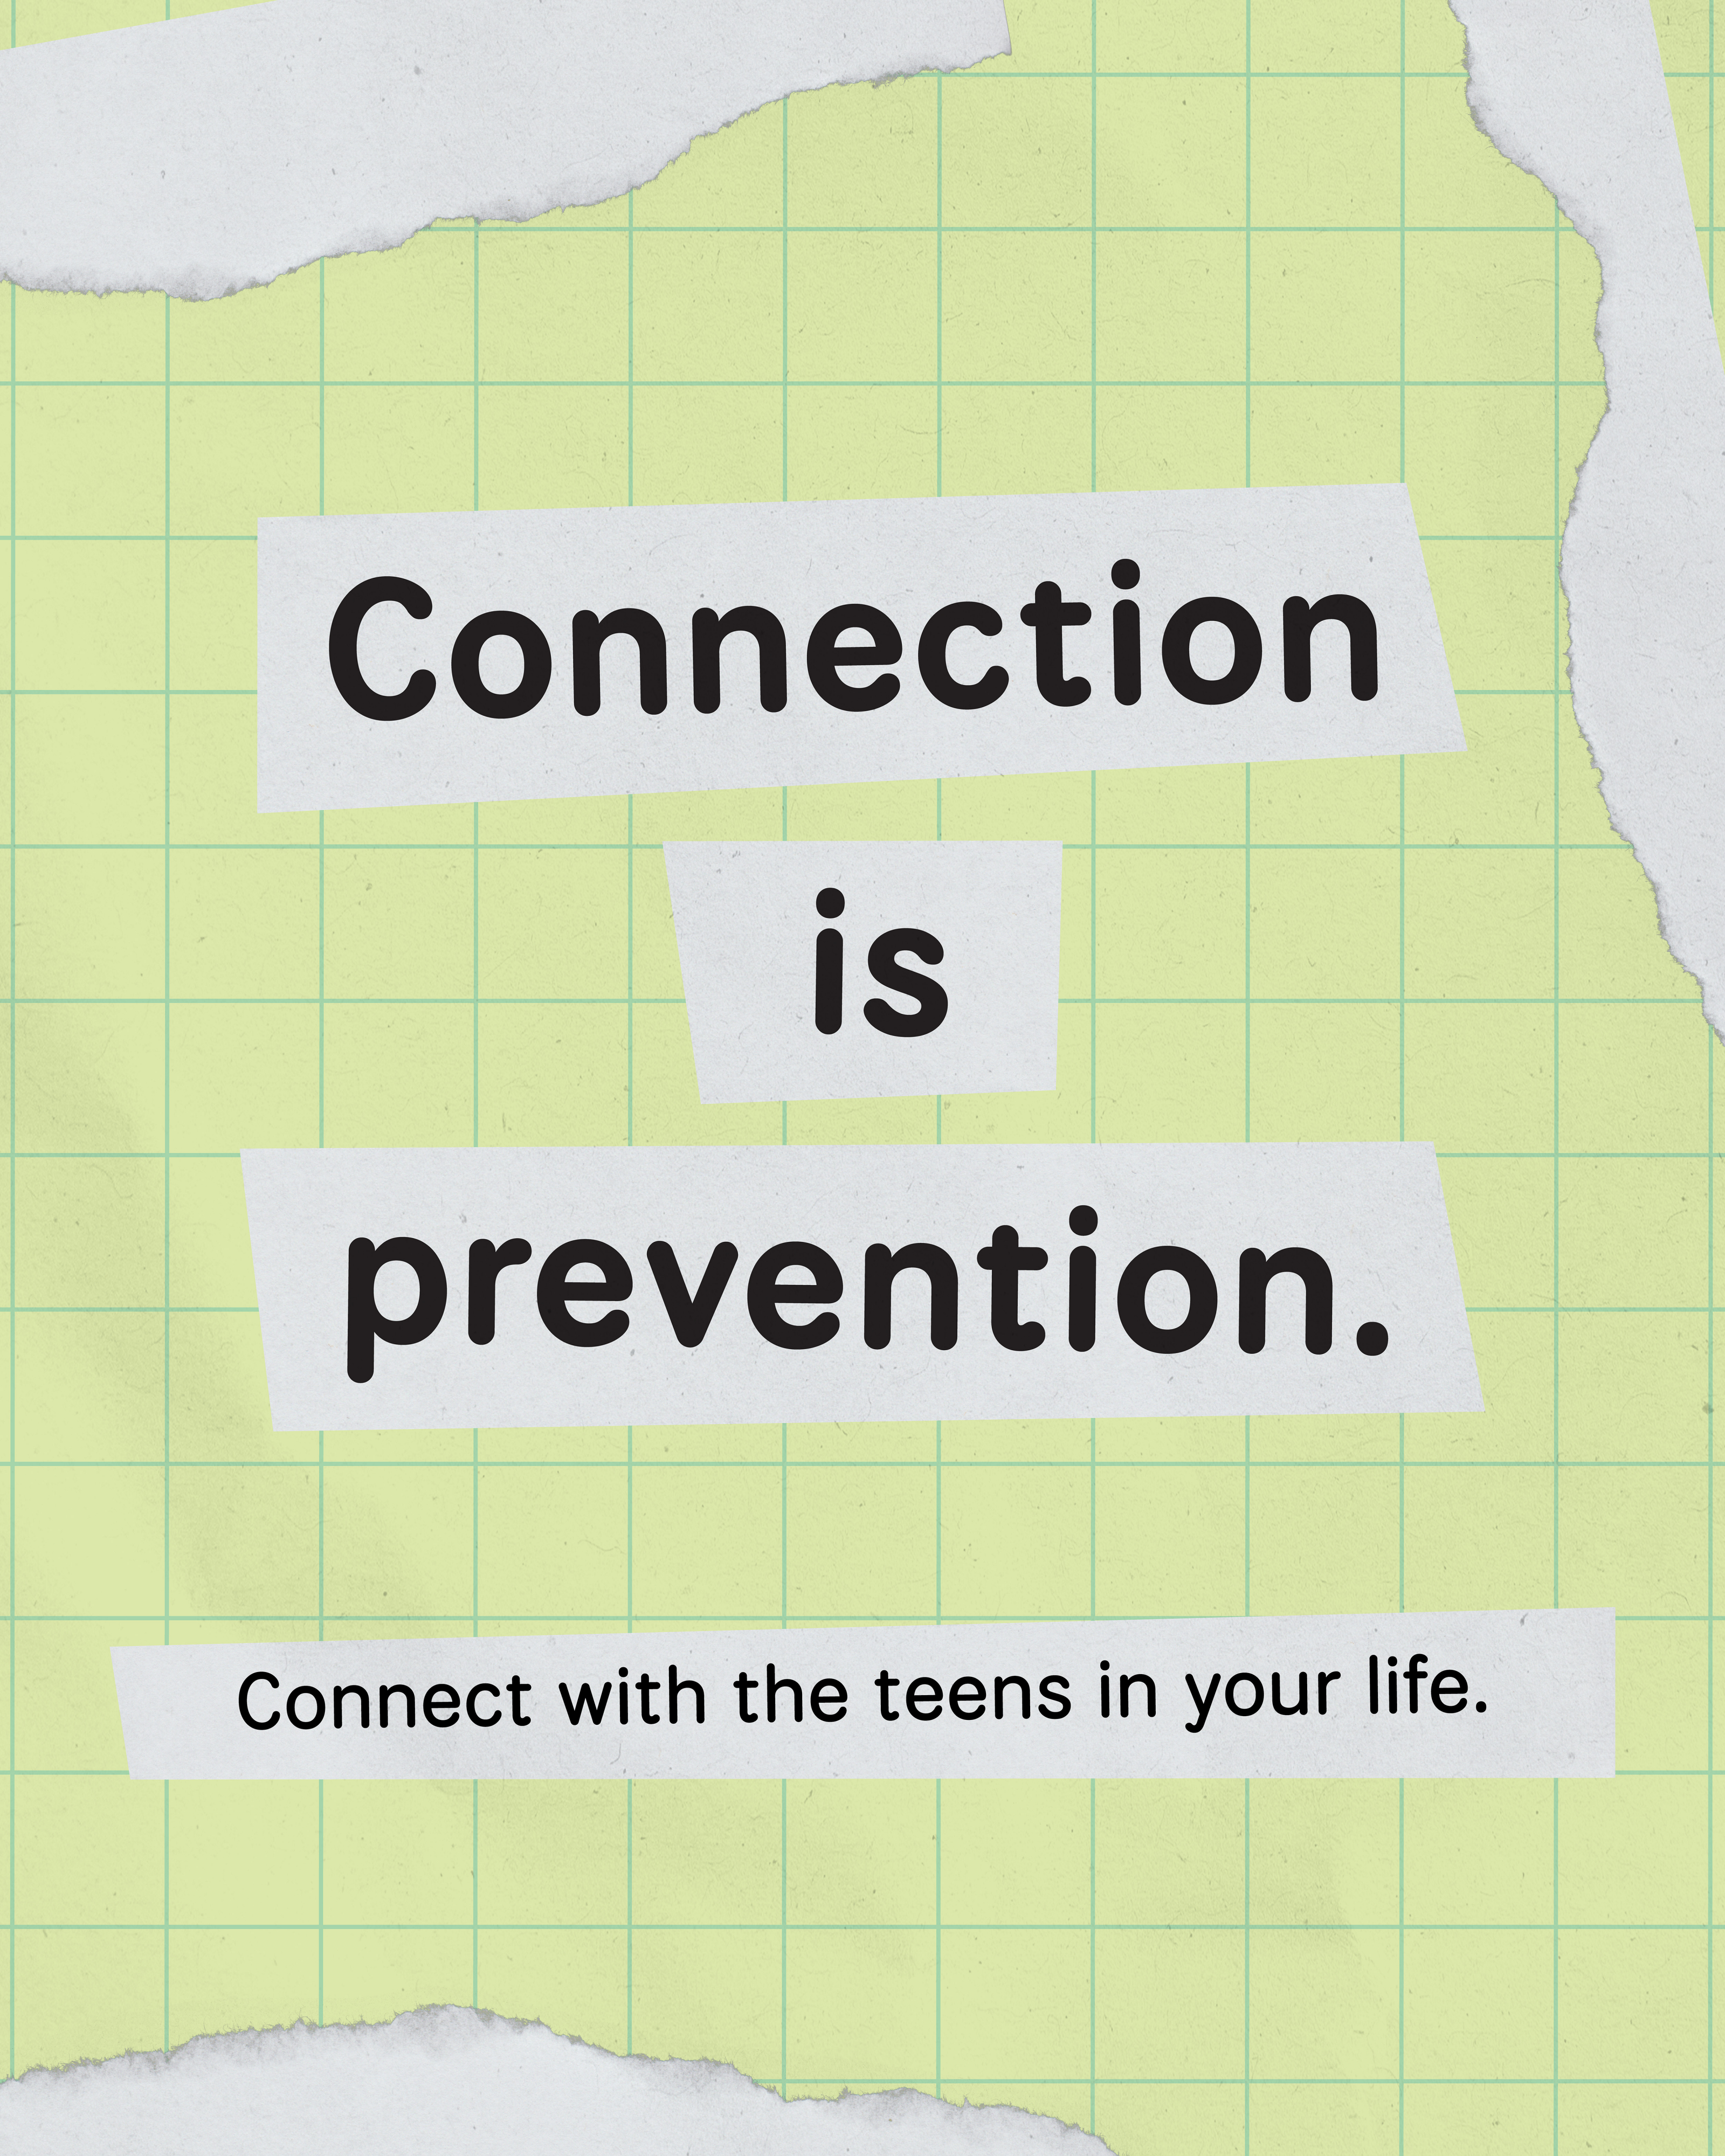

Adolescents who have a good
bond with an adult are less likely
to engage in risky behaviors.

(Source Whitney, Camille R. "Exploring the Links between Family Strengths and Adolescent Outcomes." PsycEXTRA Dataset, American Psychological Association (APA).)

Two adolescents are shown at the bottom of the page, jumping joyfully. The one on the left is wearing a black shirt and yellow pants, and the one on the right is wearing an orange shirt and black pants. There are blue lines radiating from the right adolescent's head, suggesting movement or excitement.

Connection

is

prevention.

Connect with the teens in your life.
